Irish Prison Estate - Strategy

Strategic Pillar No 4 in Current IPS Strategy 2019 – 2022

“We will invest in a prison estate that will provide safe, secure and humane custody, that upholds the dignity of all users and that reflects and supports a modern and progressive penal policy ”

During this strategy there will be a total Capital Investment of €130M throughout the Estate – of this €54M will have been invested in Limerick Prison

Limerick Prison

Limerick Prison

- **Built in 1821 (oldest closed prison in operation)**
- **Infrastructural weaknesses/deficiencies**
- **Undermining the achievement of minimal standards of imprisonment, care and safety**

Current facility described as:

- ***Inadequate***
- ***Unacceptable***
- ***Not fit for purpose***
- ***Dilapidated and run down***
- ***Cramped conditions***

What we plan to deliver?

- Modern rehabilitative facility
- Male and female prison accommodation
- Education and training facilities
- Enhanced working conditions for staff

Limerick Prison – New Development

- **New B Wing accommodation block for male prisoners**
- **New kitchen, workshops and staff facilities**
- **New exercise yards**
- **New stand alone self-contained female prison**
- **New Gatehouse, Offices & Ancillary Facilities**
- **New secure vehicle Gate Lock**
- **Substantial external works – Landscaping/Recreation etc.**
- **New Probation Services Building**

Projected Timeline?

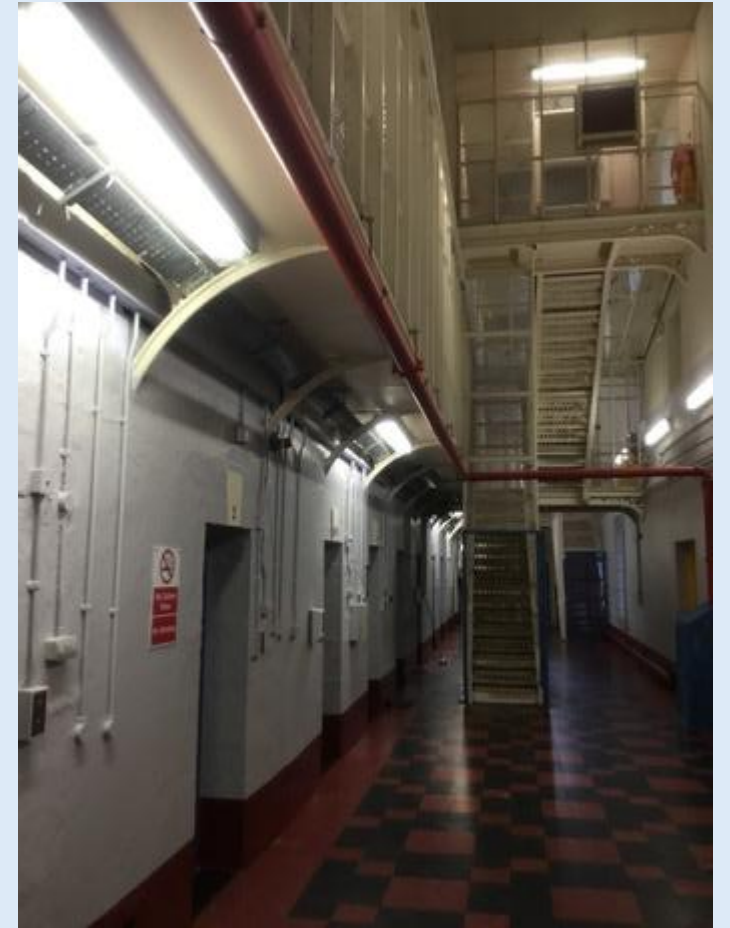

- New B-Wing Building commenced July 2019 and due for completion end of 2020
- New Female Prison Building commenced May 2019 and due for completion early 2021
- New Probation Services Building. The Irish Prison Service are facilitating the building of a new Probation Services Building on behalf of the OPW and the program for this building will run from June 2019 to March 2020.
