France	35	51	127	312	1	1	
Portugal	0	7					

**Restoring family visits - when and under which conditions**

Estonia	Estonian Prison Service does not plan to restore family visits in the next couple of weeks.
Norway	New rules for prison visits will be presented mid-May.
Luxembourg	From the 11th of Mai 2020 onwards, the Luxemburgish Prison Administration proceeds to a gradual opening of the visits. Visits are being limited to 30 mins/visit, 2 persons above the age of 16/visit, max. 25 visits/week. Visits take place in secured individual rooms where visitors and detainees are separated by glass. All visitors must disinfect their hands and wear masks. Furthermore, the options provided to have conversations over Skype are being maintained and still available. So detainees (condemned and defendants under the community regime) still have the possibility to make use of the videochat facilities in order to get in touch with their families.
Northern Ireland	The Northern Ireland Prison Service (NIPS) have introduced a range of measures in response to the risks presented by COVID-19, this included the suspension of 'in person' visits to prisoners. These measures were introduced having considered the situation in detail and Government advice. To help people in our care to stay in contact with their family and friends during the suspension of visits, NIPS launched virtual online visits from 13 April. NIPS reviewed the measures in place on 24 April and decided that the suspension of visits would remain in place subject to the a further review on or by 22 May. NIPS review of its measures (including the ongoing suspension of visits) will take cognisance of the prevailing operational and community context and Government advice.
Israel	No plans to open the visits
Sweden	No steps have been taken to go back to normal regimes and all restrictions that have been put in place are still valid, for example no visits (legal visits and clergy exceptions) and no leaves. However, in addition to free calls nationally (international calls are half the normal price) there are now tests ongoing with providing inmates contact with their children by using tablets. All decisions/ actions taken to limit the spread of Covid-19 are under constant evaluation,

Latvia regarding visits there is no set date for when this will happen. The cessation of special measures related to the Covid-19 virus will happen gradually, and in line with national health policies. In Latvia it is not planned to restore family visits for prisoners before 9 June (for now, the emergency situation in Latvia has been announced by this date).

#### Other information

Latvia Organize the implementation of mental treatment and free time events in which the third persons are not 155 observing that simultaneously not more than 25 persons can gather in the event place (considering the social distance of 2 metres); Allow the implementation of resocialisation programmes in LPA, observing that simultaneously not more than 25 persons can gather at one place (considering the social distance of 2 metres).
