* Since the pandemic, 38 detainees tested positive for Covid19, of which 3 are still active Covid19 detainees (1 sick and 2 post-Covid), 28 have since been cured, 6 detainees have been released and 1 has been placed under electronic surveillance. A total of 84 staff members have tested positive for Covid19 since the pandemic: 8 of them are currently absent because of Covid19 and 76 staff members have been cured from Covid19 and are back at work.

* During the epidemic, there were 6 cases reported (members of administrative staff) in March-April 2020, all recovered.

There is 1 infected staff member (without any symptoms in home quarantine) and 1 infected prisoner (isolated in prison hospital).

* 13 staff members have been infected, of which 12 are recovered and 9 inmates/convicted persons have been infected, of which all 9 have recovered.

* There were two positive cases but they have recovered already and there are 20 recovered staff members

* In the Swedish Prison and Probation Service we had in total of 140 cases of infected inmates, 133 prisoners have fully recovered. No infected staff.

*** Cumulative number**

- 17 confirmed C-19 infections within the prison administration;
- 6 confirmed C-19 infections within forensic care;
- 3 confirmed C19 infections within correctional institutions for juvenile offenders.

Current number

- 1 confirmed C-19 infection within the prison administration.
- Among officers: 50 active positives and 213 under observation.
- Among inmates: 52 active positives and 404 under observation.

*** INMATES**

- 6 inmates infected as of 12 August 2020
- 243 recovered inmates
- 30 COVID-positive inmates released and/or transferred to their home under the measure of "house arrest"
- 4 inmates dead (of whom 2 died after being released from prison to "house arrest")

PENITENTIARY ADMINISTRATION STAFF

- 1 (one) staff member infected as of 12 August 2020
- 317 staff members recovered
- 2 staff members dead

The number of Covid-19 infected inmates in Bulgarian prisons and detention centers:

There are 1 inmate and 1 detainee infected by Covid-19.

Staff members have been tested positive on Covid-19 - 2. 16 staff members are recovered.

* 89 officers in quarantine & 270 inmates under quarantine

* In Denmark, 3 inmates have tested positive. All three have recovered.

How many tests are you doing (% of the inmates and officers population)?

Northern Ireland All new committals to prison are offered testing as part of the quarantine arrangements – we are quarantining all new committals for 14 days. Prisoners who become symptomatic are also isolated and tested for COVID-19. To date 990 prisoners have been tested. Staff testing began on 09 April 2020 and we offer testing for staff and their family members. 315 people have been tested through the NIPS process to date.

Are you doing proactive search of positives?

Northern Ireland NIPS implemented Contact Tracing procedures on the 11 May 2020. Our procedures have been developed and agreed with our Public Health Agency and NIPS is responsible for contact tracing staff and prisoners within the NIPS estate. Our public Health Agency contact traces for staff external to the prison estate.

Are inmates having leaves?

Are they having communications with personal contact (not using glasses)?

Northern Ireland Prison visits were suspended IN March 2020 and virtual visits put in place. Face to face visits were reintroduced on 27 July 2020, but no physical touching is allowed.

Are they having treatment activities?

Northern Ireland Healthcare has continued to be delivered throughout the pandemic, although it has been delivered in a different way. Telemedicine has been increased.
