			● Staff: 63 active cases (299 recovered, total 362)						
Considera	20		•Inmates: 36 active cases (364 recovered, total 400)						
Sweden	38	<u> </u>	Prisoners - Current cases: 38 (total cumulative number of cases during the epidemic: 240)						
if a COVID-19 Vacci	ne becomes a	vallable, what would	be the rules applied for inmates receiving it in your coutnry? Fore example: will it be optional or mandatory, shall they receive it for free, etc?						
Austria	In Austrian	prisons the COVID19 v	raccine will be free for inmates, Corresponding to the schedule of the Austrian Government, first of all high-risk inmates will be vaccinated against COVID19. There will not be a compulsory vaccination, the vaccination will be optional.						
Belgium	In Belgium, vaccination in prison will be the same as vaccination in a free life:								
	no obligation								
Catalonia	free of char		the Hungarian Prison Service, in Catalan prisons the vaccination of inmates will follow the same criteria applicable to the general population (age group and underlying health conditions).						
Catalonia	_	luntary and free of cha							
Czech Republic	The rules to	be finally applied in t	he Czech Republic have yet been under development.						
	The current governmental proposal of the Vaccination strategy anticipates that vaccines are going to be provided to each citizen free of charge; costs will be covered by the general health insurance. The strategy also identifies population groups at risk and those with								
	priority to be vaccinated. The choice of whether to get vaccinated is supposed to be solely optional.								
	The approach to the vaccination against COVID-19 within the correctional settings of the Czech Prison Service must follow the nature and main points of the governmental proposal (see above). Nevertheless, the details of how to carry out the vaccination campaign will be								
	set according to the type of vaccine we will receive (mainly logistic issues associated with the vaccine handling and distribution).								
Estonia			e given to the risk group prisoners (with a severe underlying medical condition, or having a serious disease or medical condition). Vaccination will be optional, and as it is part of the state health care services – prisoners will receive it for free.						
England and Wales			te of healthcare, prisoners will receive the vaccine according to the same policy as that applied to the general population. That policy is recommended by a Joint Committee on Vaccination and Immunisation and agreed by our Department lers will not be treated any differently and will access the vaccine according to which priority group they fall into.						
Finland			ntary and free of charge for the prisoners. Prisoners will be vaccinated on the same terms as the general population.						
Ireland			vance of the programme commencing, we will survey prisoners on attitudes to vaccination and then link this to a communication strategy for prisoners. The vaccine will be free of charge. The vaccine will be administered in accordance with						
Italy	the Government decision on priority groups for vaccination The Pfizer vaccine will be the first vaccine provided in Italy as soon as it is authorized by the relevant regulating bodies for the distribution to the general population (European Agency, EMA and Italian Agency, AIFA). The priority shall be given to healthcare services workers								
,	and to persons accommodated in nursing homes.								
	and to pers	On the basis of the technical assessment by the Ministry of Health, the prison population and the law enforcement agencies, including the Penitentiary Police staff, will probably be included in the second priority group of the vaccine campaign.							
	On the basi								
	On the basi The vaccine		, not compulsory but strongly recommended, starting from the categories most at risk also among prisoners.						
Israel	On the basi The vaccine Staff:	will be free of charge							
Israel	On the basi The vaccine Staff:	will be free of charge	, not compulsory but strongly recommended, starting from the categories most at risk also among prisoners.						
Israel	On the basi The vaccine Staff: 85% of the s Inmates: 1300 inmate	will be free of charge staff got the first shot es got the first shot of	, not compulsory but strongly recommended, starting from the categories most at risk also among prisoners.						

Latvia	Referring to the question from Hungary, vaccination rules for prisoners in Latvia have not yet been developed. The Ministry of Health of Latvia has drawn up vaccination guidelines for Covid-19 infection of the population, which state that the first to be vaccinated free of
	charge will be medical staff and residents of social care institutions, respectively, risk groups. Vaccination of the population will be voluntary. The principle of voluntariness will also apply to prisoners.
Lithuania	The Lithuanian prison service is waiting for the recommendations from the Ministry of Health. Anyway, inmates will be vaccinated on the same terms as the general population depending on which priority group they fall under (ageing, vulnerable, etc.)
Netherlands	The information provided thus far indicates that detainees will be vaccinated on the same terms as the rest of the population. This means that the vaccination will be free and optional. Furthermore, there will be a prioritized group, that will receive the vaccination first.
Northern Ireland	Prisoners in Northern Ireland will have the same rights to access the vaccine as everyone in the general population. The vaccine will be supplied free to prisoners in Northern Ireland and in phase 1, which starts on 14/12/2020 our prisoners who are aged 80+ will be offered the vaccine. Other groups will then be offered in further phases in line with delivery within the wider population.
	As with the general population, prisoners will be offered the vaccine, but it will not be mandatory – they may refuse. We have seen this with testing for the virus where around 95% of new committals have been tested, with 5% refusing the test.
Norway	With reference to the question from Hungary: In Norway, inmates will be vaccinated on the same terms as the rest of the population. That means that if there are vulnerable groups among the inmates, these will also be prioritized as in the rest of the society.
Romania	In Romania, inmates' Covid-19 vaccination strategy will be the same as for the general population. The information provided so far indicates that the vaccine will be free and optional.
Sweden	From the Swedish Prison and Probation Service, SPPS, the response is the same as from HMPPS and the LPD, The prisoners will receive the vaccine according to the same regulations as the general population.
