		1	0 confirmed C-19 infection among detainees within a correctional facility for juvenile offenders;
			0 confirmed C-19 infections among detainees within detention centres;
			Total: 31 confirmed C-19 infections among detainees.

Northern Ireland			The statistics for the Northern Ireland Prison Service are as follows:
			1,947 prisoners have been tested up to 16:00 hrs on 15/12/2020 and 45 results are awaited. 98 prisoners have refused the offer of testing.
			2 prisoners have tested positive for COVID-19 within the general population, 4 prisoners tested positive in committal quarantine, 1 prisoner tested positive prior to committal and 1 prisoner long-term in outside
			hospital (outbreak on ward). No prisoners have died of Covid-19
Norway	44	88	As of 18th January, in total 88 staff members and 44 inmates/convicted persons have been infected by Covid-19. 8 staff members have still not recovered. All inmates/convicted persons have recovered.
Poland	75	103	Find below updated information about the number of infections in Poland (19/01/2021):
Polatiu	/3	103	This below appeared information about the number of infections in Polana (13/01/2021).
			- The total number of inmates is 68 165 of which 75 infected that constitutes 0,11%.
			- The total number of officers and civilian employees is 29 295 of which 103 infected what constitutes 0,35 %.
Romania	0	*	* In the Romanian prison system, since the beginning of the epidemic, there have been 148 cases reported among prison staff and 0 cases reported among prison population, until the 31st August.
Slovakia	80	221	Current COVID-19 cases as of 22/12/2020:
			Inmates - 80
			Prison staff – 221
			COVID-19 cases since the beginning of the pandemic:
			Inmates - 743
			Prison staff –752
Slovenia	36	63	The numbers for Prison Administration of the Republic of Slovenia are following (13 October): 7 staff members positive on COVID-19,
			0 inmates positive on COVID-19.
Spain	257	274	Officers: Positive cases 274/Under observation 316.
Spain - Catalonia	56	74	Inmates: 257/428. In Catalonia, since March 2020 to date, the numbers are as follows:
Spain - Catalonia	30		• Straff: 74 active cases (356 recovered, total 430)
			•Immates: 56 active cases (472 recovered, total 528)
			Unfortunately the rise in numbers in our prisons, reflects the rise in numbers in the community as in the whole of Spain we are experiencing the 3rd wave. Family visits have not been suspended.
Sweden	38	-	Prisoners - Current cases: 38 (total cumulative number of cases during the epidemic: 240)

Israel	Staff:
	85% of the staff got the first shot of the vaccine. This week we started the second one.
	Inmates:
	1300 inmates got the first shot of the vaccine. During this week we will vaccinate the inmates who agreed to get the vaccine.
	We started with the elderly and the sick inmates but eventually every inmates will be vaccinated.
Latvia	Referring to the question from Hungary, vaccination rules for prisoners in Latvia have not yet been developed. The Ministry of Health of Latvia has drawn up vaccination guidelines for Covid-19 infection of the population, which state that the first to be vaccinated free of
	charge will be medical staff and residents of social care institutions, respectively, risk groups. Vaccination of the population will be voluntary. The principle of voluntariness will also apply to prisoners.
Lithuania	The Lithuanian prison service is waiting for the recommendations from the Ministry of Health. Anyway, inmates will be vaccinated on the same terms as the general population depending on which priority group they fall under (ageing, vulnerable, etc.)
Netherlands	The information provided thus far indicates that detainees will be vaccinated on the same terms as the rest of the population. This means that the vaccination will be free and optional. Furthermore, there will be a prioritized group, that will receive the vaccination first.
Northern Ireland	Prisoners in Northern Ireland will have the same rights to access the vaccine as everyone in the general population. The vaccine will be supplied free to prisoners in Northern Ireland and in phase 1, which starts on 14/12/2020 our prisoners who are aged 80+ will be offered
	the vaccine. Other groups will then be offered in further phases in line with delivery within the wider population.
	As with the general population, prisoners will be offered the vaccine, but it will not be mandatory – they may refuse. We have seen this with testing for the virus where around 95% of new committals have been tested, with 5% refusing the test.
Norway	With reference to the question from Hungary: In Norway, inmates will be vaccinated on the same terms as the rest of the population. That means that if there are vulnerable groups among the inmates, these will also be prioritized as in the rest of the society.
Romania	In Romania, inmates' Covid-19 vaccination strategy will be the same as for the general population.
	The information provided so far indicates that the vaccine will be free and optional.
Sweden	From the Swedish Prison and Probation Service, SPPS, the response is the same as from HMPPS and the LPD, The prisoners will receive the vaccine according to the same regulations as the general population.
