Czech Republic	1. Currently 80% of prison polulation in Czech prisons is vaccinated with 2 doses (15,000 inmates out of 19,000). 260 have received the 3rd dose already. Over 700 have received the first dose and are expecting the 2nd. Though there are inmates who refuse the vaccination, some of them cannot get the vaccination due to other health issues. Also many of those non-vaccinated are in pre-trial detention where ensuring the vaccination can be complicated due to limited/uncertain time of imprisonment.  2. See question 1  3. There haven't been any measures, just leaflet promotion and discussions of staff members with inmates.  4. Non-vaccinated inmates cannot be involved in employment outside the prison which is a general requirement of employers.  5. Currently all people entering prisons for a family visit have to present the Covid certificate – full vaccination (2 doses), C19 recovery within last 180 days or negative PCR test not older that 72 hours.
